

Inner Permanent Magnet Brushless Motors – IPM BL

New generation of BLPM motors with inner rear earth permanent magnets, CAN communication, sine voltage supply and IMS or DCB power electronics

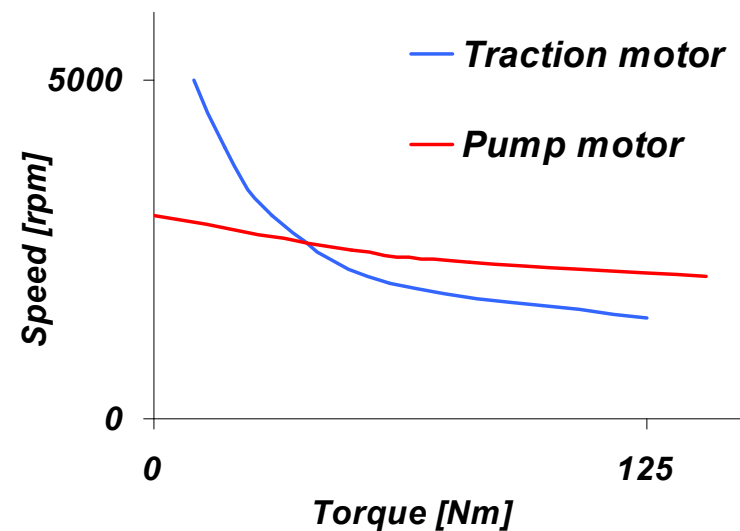

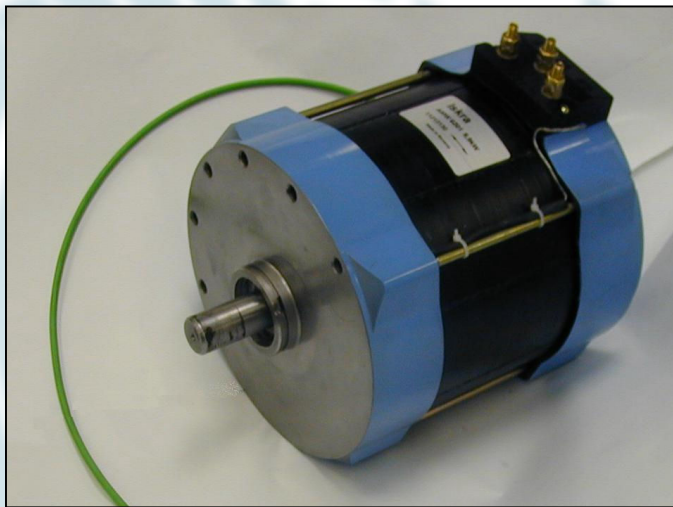

IPM BL motors type AMG

Inner Permanent Magnet Brushless Motors – IPM BL

80V 9,9kW for traction motor

80V 18,5 kW for pump motor

Features:

- Motor efficiency > 95%
- Suitable for traction or pump motor applications like electric forklifts or hybrid vehicles
- High specific power/weight ratio
- Equipped with electronic absolute rotor position sensor
- Very low noise operation, optimized for sine excitation
